Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial etc.
- MOQ: 2000-3000m/model
- Thickness: 0.14mm-0.5mm
- Printing: 1-5Color Printing
- Length: 100m-400m/roll
- Packaging: Rolls
- Width: 1260mm/1400mm
- Material: PVC
- Highlight: **MDF Pressing PVC Membrane Film,
PVC Membrane Film 1400mm,
MDF Pressing Decorative PVC Foil**

Product Description

Highly Efficient Top-notch PVC Membrane Foil Width 1260mm/1400mm for MDF Pressing

Product Description:

Our PVC Foil is made primarily from Polyvinyl Chloride (PVC), a synthetic plastic material renowned for its durability, flexibility, and processability. It is available in a multitude of colors, textures, and patterns, capable of imitating the look and feel of natural materials such as wood, stone, fabric, or metal – providing a cost-effective substitute while still maintaining a top-notch appearance.

RealSun Deco PVC Foil is also versatile, capable of being applied to various surfaces, like doors, cabinets, furniture, and walls, and sticking easily to different substrates. Its toughness to deterioration and strength guarantee it a place in high-traffic spots. It is hassle-free to take care of, usually needing only a light wipe once a week with a damp cloth.

One of the main advantages of PVC Foil is its affordability, enabling you to enjoy high-end aesthetics without all the associated expenses. There is a huge variety of styles and finishes accessible, allowing you to customize it for your project and personal design tastes. It is commonly used in residential and commercial settings for things like kitchen and bathroom cabinets, interior doors, wall paneling, furniture and retail displays.

Features:

Product Name: PVC Membrane Foil

Printing: 1-5Color Printing

Material: PVC

Width: 1260mm/1400mm

Surface: Smooth, Embossed, Texture, Matte, Super Matte, Soft Touch, High Gloss

Packaging: Rolls

PVC Decorative Sheet

PVC Membrane Foil for Door

PVC Decorative Sheet for Wall

Technical Parameters:

We provide products of different thicknesses of 0.1 and 0.5mm, as well as variable width from 1260mm to 1400mm for different needs.

Length of the roll offered by us ranges from 100 to 400m. We provide our customers with a variety of designs including wood grain, solid color, marble and brick and so on.

Our products have different surface treatments such as Matt, Super matt, embossed, high gloss, and soft touch for users to choose from. Additionally, we offer OEM and ODM services to meet customers' individual requirements.

Applications:

Membrane Press (vacuum press):

This method is suitable for covering materials like MDF, particleboard, wooden board, fiberboard etc, for items like doors, kitchen cabinets, wardrobes and furniture, etc. It is a great way to cover embossed board and cover five services at once. Thickness of the layers vary from 0.20-0.50mm, width can be 1260mm or 1400mm and the length of the roll is between 100-300m.

Wrapping Profiles:

This method is great for covering all kinds of profiles such as wood profile, aluminum profile, PVC profile, etc. for door frames, window sills, base channels, PVC ceilings and so on. Thickness of the layers is 0.12-0.18mm, width ranges from 40-1260mm and the length of the roll is between 300-800m.

Cold Laminating:

This method is suitable for all kinds of flat panels such as wood panel, steel panel, aluminum panel, PVC panel, etc. for doors and furniture. Thickness of the layers varies from 0.12-0.20mm, width is 1240-1260mm and the length of the roll is between 300-500m.

Hot Laminating:

This process is suitable for the PVC panel, steel panel, aluminum panel for doors, skirting and so on. Thickness of the layers ranges from 0.16-0.30mm, width is 1260mm and the length of the roll is between 200-300m.

Self-adhesive:

This process can be used on any smooth surface for furniture and indoor decorations such as wardrobes, furniture and cabinets, etc. Thickness of the layers is 0.10-0.20mm, width is 600mm or 1220mm and the length of the roll is between 5-50m.

Customization:

Realsun Deco offers customized services for PVC Membrane Foil, which is originated from Foshan, China. The minimum order quantity is 3000m per model. The price is negotiable. The delivery time is 15-20 days. The payment terms are T/T 30% down payment, 70% balance before shipment. The supply ability is 500000m per month. The packaging is rolls. The MOQ is 2000-3000m per model. It has smooth, embossed, texture, matte, super matte, soft touch, and high gloss surfaces. The features of the product include waterproof, anti flame, anti-scratch, and antibacterial. It can be used for lamination, vacuum membrane press, wrapping, and hot press, etc. It is suitable for door, thermo foil, plastic film, decorative film, furniture, and wood grain film.

Packing and Shipping:

Packaging and Shipping for PVC Membrane Foil:

The foil is packed by roll with foam protection sheet, kraft paper head, and plastic sheet outside.
Packaging should ensure that the product does not come into contact with water, dust, or other contaminants.
The product should be shipped in a secure way to prevent damage during transit.
Shipping should be monitored to ensure timely delivery at the destination.
