- Length: 100m-400m/roll
- Thickness: 0.1mm-0.5mm
- Highlight: **PVC Lamination Film Customized,
Wood Textured PVC Lamination Film,
Wood Textured pvc lamination sheet**

Product Description

Soft Touch Surface PVC Lamination Film Customized Design and Size

Product Description:

Our **PVC Foil** is crafted from **Polyvinyl Chloride (PVC)**, a synthetic plastic that offers excellent strength, flexibility, and processability. It imitates the appearance of real materials like wood, stone, cloth, or metal while being more affordable and maintaining a high-quality look. We offer an array of colors, patterns, and textures that will surely match your interior décor.

In addition to its aesthetic value, our pvc foil is highly adaptable and works on a variety of surfaces, including walls, doors, cabinets, and furniture. It is renowned for its longevity and its resistance to deterioration, making it an ideal choice for high-traffic areas. In terms of maintenance, our foil only requires weekly cleaning with a wet cloth, which makes upkeep simple and efficient.

Above all, decorative pvc foil is economical. It provides sophisticated looking surfaces at a pocket-friendly cost, making it popular among home and commercial users. Plus, manufacturers offer a wide variety of styles and finishes which can be modified to meet specific project requirements or individual design preferences. PVC Foil is often used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and more.

Features:

Product Name: PVC Lamination Film

Application: Furniture, Door, Wall, Kitchen Cabinet, Ceiling etc.

Surface: Glossy, Matte, Embossed, Super Matte, Soft Touch

Material: PVC

Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press and so on

Thickness: 0.1mm-0.5mm

Keywords: pvc laminating sheet, lamination roll film, pvc lamination film

Technical Parameters:

PE Foam Film offered by Zheng Yi is available in various thicknesses, ranging from 0.1mm to 0.5mm. It is available in two widths: 1260mm and 1400mm. It comes in rolls of length 100m to 400m. It is available in a variety of designs like Wood grain, Solid color, Marble, and Brick types.

The film is treated differently based on the requirement for Matt, Super matt, embossed, high gloss, and soft touch effects. Besides, custom services for OEM, ODM and pre-treatment are also provided.

Applications:

There are five different processes for different applications, they are **Membrane Press (vacuum press)**, **Wrapping Profiles**, **Cold Laminating**, **Hot Laminating** and **Self-adhesive**.

Membrane Press (vacuum press) is mainly used to cover MDF, particleboard, wooden board, fiberboard, etc. for doors, kitchen cabinet, wardrobe, furniture, etc. It can cover embossed board and five surfaces at same time. The thickness range is 0.20-0.50mm, width range is 1260mm, 1400mm and length range is 100-300m/roll.

Wrapping Profiles is used to cover all kinds of profiles including wood profile, aluminum profile, PVC profile, etc. for door frame, window sill, base channel, PVC ceiling and so on. Its thickness range is 0.12-0.18mm, width range is 40-1260mm and length range is 300-800m/roll.

Cold Laminating is used to cover all kinds of flat panels like wood panel, steel panel, aluminum panel, PVC panel, etc. and commonly use for doors and furniture. The thickness range is 0.12-0.20mm, width range is 1240-1260mm and length range is 300-500m/roll.

Hot Laminating is mainly use for covering PVC panel, steel panel, aluminum panel for doors, skirting and so on. The thickness range is 0.16-0.30mm, width range is 1260mm and length range is 200-300m/roll.

Self-adhesive is used for sticking on any smooth surface, such as furniture and indoor decorations. It has the thickness range of 0.10-0.20mm, the width range of 600mm/1220mm and the length range of 5-50m/roll.

Customization:

Our **decorative foil**, **lamination roll film**, and **lamination vinyl film** are all manufactured under the brand name **Realsun Deco**. Our products are of high quality and are made with PVC, the thickness ranging from 0.1mm to 0.5mm. The length and width of the product are both customizable, with a minimum order quantity of 3000m/model, and a maximum width of 1260mm or 1400mm. The product is packaged in rolls for delivery and we are able to supply up to 500000m/month. Our products are available for OEM and Customized Design And Size. The price of the product is negotiable and the payment terms are T/T 30% down payment, 70% balance before shipment. The delivery time is approximately 15-20 days. The place of origin is Foshan, China.

Packing and Shipping:

PVC Lamination Film Packaging and Shipping:

The PVC Lamination Film is usually packed in rolls and pallets. The rolls are secured with shrink wrap or stretch wrap to prevent movement during transit. The rolls are labeled with the product's name and specifications. Each pallet is secured with stretch wrap and a

plastic cap to prevent shifting during transit.
