Product Description

Product Description:

Material

The main ingredient of our PVC foil is Polyvinyl Chloride (PVC), a synthetic plastic known for its outstanding strength, flexibility, and ease of processing.

Appearance

We offer a diverse range of colors, patterns, and textures for our PVC foil. It is a cost-effective alternative to natural materials such as wood, stone, cloth, or metal, while still providing a premium look that can mimic their appearance.

Adaptability

Our foil is suitable for a wide range of surfaces, including walls, doors, cabinets, and furniture. It can effectively be applied in various interior spaces.

Durability

Realsun Deco PVC foil is renowned for its strength and resistance to deterioration, making it a popular choice for high-traffic areas where durability is essential.

Maintenance

Our PVC foil is low maintenance, requiring only a weekly cleaning with a wet cloth after installation.

Economical

One of the primary advantages of decorative PVC foil is its lower cost compared to natural materials. It allows for the creation of sophisticated aesthetics without the associated expenses.

Modification

Manufacturers offer a wide variety of styles and finishes, providing the flexibility to modify the foil to meet project requirements and individual design preferences.

Application

Decorative PVC foil is frequently used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other uses in both residential and commercial settings.

Applications:

Membrane Press

The Membrane Press is a versatile covering option for various materials such as MDF, particle board, wooden board, and fiberboard. It is commonly used for doors, kitchen cabinets, wardrobes, and furniture.

Wrapping Profiles

Our Wrapping Profiles solution is suitable for covering all types of profiles, including wood, aluminum, and PVC profiles. This method can be used for door frames, window sills, base channels, PVC ceilings, and more.

Cold Lamination

Cold Lamination is ideal for covering flat panels like wood, steel, aluminum, and PVC panels. It is mainly used for doors and furniture.

Hot Lamination

Hot Lamination is specifically designed for covering PVC, steel, and aluminum panels, making it perfect for applications such as doors, skirtings, and more.

Self Adhesive

Our PVC films can also be transformed into self-adhesive PVC film. This type of film uses PVC decorative film as its base material and is applied using an environmental acrylic pressure-sensitive adhesive. It can easily and securely adhere to any surface, making it an easy, convenient, and efficient choice for furniture and other decorations.

Customization:

At Realsun Deco, we offer customized services for our PVC membrane foil product. Our brand, Realsun Deco, is known for its high-quality pvc decorative sheet for furniture. Our pvc decorative sheet is made in Foshan, China and meets international standards.

Our minimum order quantity is 3000m/model and the price is negotiable. We pack our pvc membrane foil in rolls for easy transportation and delivery. The delivery time is 15-20 days and we accept T/T 30% down payment, with the remaining 70% balance to be paid before shipment.

With a supply ability of 500000m/month, we can cater to large orders and ensure timely delivery. Our pvc membrane foil can be printed in 1-5 colors, and is available in a thickness range of 0.14mm-0.5mm. We offer a variety of surface finishes including smooth, embossed, texture, matte, super matte, soft touch, and high gloss.

Our pvc membrane foil is packaged in rolls and has a width of 1260mm/1400mm. It is a perfect choice for furniture decoration and is highly durable. With our customized service, we can cater to your specific needs and provide tailor-made solutions for your furniture. Choose Realsun Deco for all your pvc membrane foil needs.

Packing and Shipping:

Packaging and Shipping

The PVC membrane foil will be packaged in rolls of 100m to 400m length, depending on the thickness. Each roll will be wrapped in foam sheet to protect it from dust and moisture during transportation.

The rolls will then be wrapped with kraft paper and plastic sheet to prevent any damage during shipping. The roll will be sealed and labeled with the product name, size, and quantity for easy identification.

For international shipments, the rolls will be loaded onto pallets and secured with shrink wrap to ensure safe delivery. The pallets will also be labeled with the necessary shipping information for customs clearance.

We offer various shipping options, including air, sea, and land transportation, to accommodate our customers' needs and delivery time requirements. Our experienced logistics team will work closely with our trusted shipping partners to ensure timely and reliable delivery of the PVC membrane foil to our customers.
