Product Description

Marble-Inspired High Gloss Vinyl PVC Decorative Foil for Kitchen Cabinets and Countertops

Detail Description

Marble PVC film is a thin, flexible plastic material made from polyvinyl chloride (PVC). It is manufactured to have a realistic marble-like appearance, with patterns and veining that resemble natural stone. The film can be self-adhesive, making it easy to apply to various surfaces.

Specification

Durable and Resilient: The PVC material possesses exceptional robustness, effectively resisting scratches, stains, and moisture.

Cost-Effective: It provides you with a choice that is more budget-friendly than genuine marble surfaces.

Easy Installation: The built-in self-adhesive backing design allows for effortless DIY application without the need for specialized tools.

Diverse Design Selection: It offers a wealth of marble patterns and color variations to cater to different decoration styles.

Versatile Applications: It can be used to beautify a variety of indoor decoration surfaces, such as furniture, countertops, walls, and cabinets.

Common Uses of Marble PVC Film:

Refinishing furniture surfaces such as tabletops, dressers, and cabinets.

Transforming the appearance of kitchen and bathroom countertops and backsplashes.

Creating a luxurious marble-inspired aesthetic on walls.

Protecting and enhancing the visual appeal of indoor surfaces.

Maintenance Tips:

Clean the PVC film surface with a damp cloth.

Avoid harsh chemicals or abrasive cleaners that could damage the finish.

Minor scratches or damage can often be repaired by reapplying the film locally.

Marble PVC film presents a practical and economical solution for achieving the sophisticated look of natural marble. Its durability, ease of application, and extensive design choices make it a favored option for various home improvement and decor projects.

Packing Detail

Packing in roll with foam sheet and kraft paper.
